TIES Laptop Donation Initiative

## Because Education is Essential

T.I.E.S. - A Technology Initiative Empowering Students is a project designed in light of the unprecedented circumstances. This initiative focuses on gifting low-income students a laptop in order for them to complete their coursework remotely. Since launching, T.I.E.S. has been broadcasted by local news outlets and received over 1,300 submissions affirming the fact that students are experiencing digital divide difficulties.

While the COVID-19 pandemic is challenging the strength of our economy, we kindly ask for your contribution to this initiative. Your support will enable students to continue their education remotely as well as remove their families of a financial burden.
